Submission Guidelines

Submission Guidelines

Authors are invited to submit research and application papers following the IEEE Computer Society Proceedings Manuscripts style: two columns, single-spaced, including figures and references, using 10 fonts, and number each page. You can confirm the IEEE Computer Society Proceedings Author Guidelines at the following web page:
 - http://www.ieee.org/portal/pages/pubs/transactions/stylesheets.html

Submission papers are classified into 3 categorizes (1) full paper (8 pages), (2) short paper (6 pages), and (3) poster (2 pages) representing original, previously unpublished work. Submitted papers will be carefully evaluated based on originality, significance, technical soundness, and clarity of exposition.

Contact author must provide the following information at the AReS web site: paper title, authors' names, affiliations, postal address, phone, fax, and e-mail address of the author(s), about 200-250 word abstract, and about five keywords.

Submission of a paper implies that should the paper be accepted, at least one of the authors will register and present the paper in the conference.

Accepted papers will be given guidelines in preparing and submitting the final manuscript(s) together with the notification of acceptance.

Proceedings of the ARES conference will be published by IEEE Computer Society Press. Based on quality and referee reviews, some papers not suitable for acceptance as full paper will be accepted for presentation at ARES in Poster category and will be also included in the IEEE Proceedings. The best papers selected by ARES program committee out of papers accepted for presentation at ARES will be further published in some International journals.

The submission site for ARES paper will be available in the first week of October. If you have the paper ready to submit, please send it via email to ares-conference[at]securityresearch.at. If you have any difficulty to submit the paper via web interface, please do not hesitate to send them to ares-conference[at]securityresearch.at.
